Morning Oregonian.

VOL. XVIII.—NO. 225 PORTLAND, OREGON: THURSDAY, OCTOBER 24, 1878. PRICE—TEN CENTS.

GENERAL NEWS.

[BY TELEGRAPH TO THE OREGONIAN.]

Stage Robbed.

NEW ORLEANS, Oct. 23.—A Galveston *News'* special says: The Fort Worth stage leaving Weatherford, was stopped this morning at 15 miles east of the latter place by two armed men, and the mail pouches cut open and contents rifled. One male and two female passengers were robbed of valuables. The amount obtained by the highwaymen is unknown.

The St. Louis Dry Goods Failure.

CHICAGO, Oct. 23.—Dodd, Brown & Co., the St. Louis dry goods merchants, have done the largest business of any southern house in the country, and although their capital has always been limited, have exhibited great enterprise, pluck and skill in the management of business. Nobody in Chicago suffers. They sold, in 1877, over $4,000,000 worth of goods, but gave closer prices and longer time than customary on all trades, and this is said to have tempted them. Their sales this year are nearly $6,000,000.

Engagement of Samuel J.

ST. LOUIS, Oct. 23.—The *Globe-Democrat* will announce to-morrow that Samuel J. Tilden is engaged to be married to a St. Louis belle, and that the wedding will take place within three months.

A Railroad Rented.

CHICAGO, Oct. 23.—Particulars have become known here concerning the lease of the Denver & Rio Grande railroad by the Atchison, Topeka & Santa Fe road for thirty years. The lease takes effect December 1st. The Denver & Rio Grande receives 43 per cent. of gross earnings, decreasing one per cent. yearly and finally reserves 37 per cent. from the 7th to the 30th year. The San Juan silver mines are to be reached through the Grand Canyon of Arkansas, and the ultimate design is to connect with the Kansas Pacific.

An Outrage.

TOPEKA, Oct. 23.—At a political meeting at Lawrence some one threw a large stone which struck Randall, who was addressing the crowd. The speaker's escape was very narrow.

Poor Fellow.

ATCHISON, Oct. 23.—Ben Johnson, former sheriff of this place, and of late well known as proprietor of the Turn Verein hall at Solomon, committed suicide near this place by shooting himself in the breast. When found dead, and a letter written by him and found on his person gives financial reasons for the act.

Weed also Denies.

NEW YORK, Oct. 23.—Smith M. Weed said to a *Herald* reporter last evening that he sent no dispatches from South Carolina, but that there is not a word of truth in those the World ascribes to him. Also that he never had any understanding board or made any arrangement with them or tried to bribe them in any way.

Storm at New York.

NEW YORK, Oct. 23.—This storm here is severe. Telegraph wires are down in all directions. Bay very rough. Damage to shipping probably heavy, as it is blowing directly on shore.

Bank Failure.

RICHMOND, Oct. 23.—The banking house of Ellyson, Mason & Co. has suspended and made an assignment to J. Alex. Preston for the benefit of their creditors. The cause of the failure is attributed to losses of the senior member, R. H. Claiborough, in the St. Clair case, of which he was proprietor, shrinkage in values and general dry rot in the business of the banking house. Liabilities of the suspended banking house are about $100,000, which $60,000 are secured. Assets consist of real estate and book accounts.

The Storm in Pensylvania.

PHILADELPHIA, Oct. 23.—A terrible storm here this morning. Buildings dismantled, trees and roofs blown off. Advices from the surrounding towns report great damage done by the storm.

Fatal Explosion.

LOS ANGELES, Oct. 23.—Yesterday evening at 5 o'clock, Mrs. West, wife of a carpenter of East Los Angeles, while lighting a kerosene lamp. She lingered five hours, but she expired in great agony.

Hudson Coming Home.

Lieut. Hudson leaves here to-morrow with Greely, one of the men engaged in the murder of O'Shea's pawnbroker shop and murder of a boy at Portland, Oregon, on the 30th August last.

WASHINGTON CITY.

About Silver.

NEW YORK, Oct. 23.—A *Times'* Washington special says: Bids will be received to-morrow for purchase of silver bullion under Sherman's recent order and in accordance with the secretary's regulations. Bids will be made by telegraph, and bidders whose offers may be accepted, either for the whole amount or any part thereof, will receive notification by telegraph. The new regulations require the telegraphic bids to be simply addressed to the director of the mint at Washington. This seems to be a careless and unsafe manner to transact business of this kind, for the reason that there is no way is prescribed for distinguishing bids for bullion from any other that may be addressed by telegraph to the director of mints. Bids thus addressed are liable to be opened at different offices through the day, making it possible for early bidders figures already received to take advantage of any favorable change which may take place in the market under the secretary's regulations. It is possible in various ways for adroit operators to become informed of the figures of competitors, and the possession of such knowledge would be likely to inure to the advantage of the government in purchasing, early bidders would be neglected and placed at an unfair disadvantage. It is probable that when the instructions of the secretary is called to this matter the possibility of bids being opened and the amount to be considered shall be required. The amount of silver bullion to be purchased to-morrow is 400,000 ounces. The regular weekly purchases have been about 750,000 ounces. That amount is 300,000 ozs. to the weekly yield of our mines. The entire limiting the purchases to 400,000 ounces weekly will probably result in increasing the agitation in favor of free coinage at the next session of congress. Unless this limitation is removed, holders of the entire product of our mines as well as those of demonetized silver in Europe will likely urge advocates of silver in congress to renew the fight for free silver coinage.

WASHINGTON, Oct. 23.—Last night's heavy rain, interrupted telegraph communication between Washington and most points north and west, the time for receiving proposals for the sale of silver to the United States treasury department has been extended until Friday noon, the 25th inst.

National Banks—Opinion Reversed.

Attorney-General Devens has reversed his former opinion that National Banks in making returns of capital subject to duty, should be permitted to deduct U. S. bonds at their face value only, and now decides that they may deduct the sum amount invested in such bonds, that is to say, not only their par value but the premium added. It is said the treasury officials that this decision will reopen some $50 000 assessments against the treasury since the passage of the banking act, and that a large amount of money will be required to refund the money illegally collected from banks on the previous rulings.

Personal.

Hon. Representative Page arrived here to day in good health.

The engagement of Mr. J. C. Clinger at Fort Hall was destroyed with most of its furniture on last Friday night.

EUROPEAN NEWS.

The Italian Cabinet Resign.

ROME, Oct. 23.—Prime Minister Cairoli to day informed King Humbert that the whole cabinet had resigned. The king protested warmly against their action, and declared that even if the cabinet persisted in resigning, he would charge Signor Cairoli with the formation of another cabinet. Signor Crispi publishes a letter attacking the cabinet for humiliating Italy in the eyes of Europe. This increases Cairoli's difficulties.

The Russians and the Turks.

LONDON, Oct. 23.—A dispatch from Constantinople says Prince Lobanoff informed Safvet Pasha on Monday that the Russians will not retreat from their present positions at Midia and Visa. The Turks are close to these points and have a strong force at Tchorlu. It is not true that the Russians hold Tchatalja. Prince Lobanoff likewise reiterated a statement that the Russians will not quit Adrianople until after the signing of the definitive treaty.

A Vienna dispatch says: The most essential points in the definitive treaty between Russia and Turkey, namely the war indemnity, and the time for withdrawal of Russians are still unsettled.

Russia's Demand.

ST. PETERSBURG, Oct. 23.—The *Golos* says it is considered that a demand for immediate payment of three million rubles is probable.

Von Pretecognade's Programme.

VIENNA, Oct. 23.—Baron Von Pretecognade explained his programme to a meeting of the constitutional party and declared if they did not accept it he would renounce the attempt to form a cabinet. The programme opposes an advance on Novi Bazar and promises the utmost possible reduction of expenditures. It says the cost of administration of Bosnia and Herzegovina will be delayed.

The Effects of War.

ST. PETERSBURG, Oct. 23.—The *Journal de St. Petersburg* states that in consequence of the increase in the uncovered note issue during the war by five hundred millions of rubles tariff is to be raised 15 per cent and an income tax introduced.

This Looks like War.

BOMBAY, Oct. 22.—Government has published an announcement offering free passage home to the families of officers engaged in active service. It is thought, however, that advance into Afghanistan will be impossible for some time.

The Deadly Fever.

Fever is steadily increasing among the troops stationed at Jamrood and encamped on the frontier.

The Ameer Backed by Russia.

LONDON, Oct. 23.—A dispatch from Simla says the viceroy's native emissary, who has just returned from Cabul, considers that the ameer has been with difficulty induced to take his present course by substantial offers from the Russian envoy, who was still at Cabul when the emissary left.

This also is Ominous.

LONDON, Oct. 23.—A Berlin dispatch says the czar has issued a ukase ordering that military furloughs shall only be granted for particularly urgent reasons and in any case not to extend beyond February.

Sir Stafford Northcote, chancellor of the exchequer, speaking at Wolverhampton, admitted that he was not able to say that he was sure that there would not be a renewal of war. It was impossible to ignore the fact, he said, that difficulties were being raised against the execution of certain parts of the treaty of Berlin.

Russian Forces Moving South.

CONSTANTINOPLE, Oct. 23.—The bulk of the Russian forces in Bulgaria are moving southward. Russian infantry alone in eastern Roumelia already number 80,000 men. Another army corps is near Constantinople. There are 15,000 men in Adrianople.

Turkish Prisoners Released.

Between October 14th and 19th 13,700 returned Turkish prisoners were landed in the Bosporus.

Movement Postponed.

LONDON, Oct. 23.—The Bombay *Gazette* states that an advance upon Cabul is postponed until next year.

Disastrous Flood in France.

PARIS, Oct. 23.—At Largentiere, on Monday night, the river Ligne rose 20 metres in an hour, flooding a great part of the town. Much property was destroyed; no loss of life reported.

"He is Passing Away."

LONDON, Oct. 23.—It is reported that a member of the suspended firm of Smith, Fleming & Co., prominently mentioned in connection with the Glasgow bank matters, chartered a steamer and fled the coast of Kintyre, intending to reach Spain.

Another Deficiency.

GLASGOW, Oct. 23.—It is reported that a further deficiency of £50,000 in assets of the Glasgow bank is discovered.

Mehemet Pasha's Death.

LONDON, Oct. 23.—The Albanian league disclaim responsibility for the murder of Mehemet Pasha, and declare that the murder was perpetrated by brigands. It is thought that this explanation will be accepted by the porte, and the necessity avoided of sending troops to punish the Albanians.

The New Law.

BERLIN, Oct. 23.—Pursuant to the provisions of the anti-socialist bill, the police dissolved four clubs in this city.

Gortschakoff Retires.

BERLIN, Oct. 23.—Schouvaloff will succeed Gortschakoff as Russian prime minister, on account of the latter's precarious health.

HEALTH RETURNING.

New Orleans Yesterday.

NEW ORLEANS, Oct. 23.—Weather clear, cool and windy. Deaths, 19; cases reported, 173.

Return of Business Life.

MEMPHIS, Oct. 23.—From six o'clock last night until noon to-day, undertakers report orders for eleven interments. The streets are thronged with returning refugees and business is being gradually resumed. The Howard association continue their work of sending to their homes all nurses from abroad. Another heavy frost fell last night.

A Severe Storm.

CINCINNATI, Oct. 23.—A severe rain-storm in Pennsylvania last night prostrated the telegraph wires and cut off all communication with the east.

A Victory for Oakes.

ST. LOUIS, Oct. 23.—The appointment of T. Smith as receiver of the Kansas Pacific railroad is claimed to be a victory for Oakes, the present superintendent of the road, as opposed to Jay Gould, and will result in breaking up the present combination and pooling with the Union Pacific. All general officers of the company, under order of the court, are to be moved to the state of Kansas.

ALASKA.

Several families from Sitka are on their way south, as they expect trouble with the Indians during the coming winter.

The fish supply of Alaska is enormous, but the industry has not been managed in a proper manner so far, and is open to further development.

On the fur sea islands the fall quota of seals has been killed, and the natives are very prosperous under the joint management of the Alaska Commercial Co. and the U. S. treasury agents.

Mr. I. Petroff, by permission of the secretary of the treasury, made a tour of Alaska territory in the revenue cutter *Rush*, on her recent trip, in the interest of H. H. Bancroft's work on the History of the Pacific Coast, and for the purpose of collecting additional material for that portion of the work referring to Alaska.

The Sitka cannery is shut down for the winter, and the Chinamen employed as miners are on their way to San Francisco. The quartz mine is still in operation, and the manager expresses confidence in the ultimate success of the enterprise; but for some reason no ore has been crushed yet though a large quantity is on hand and five stamps of the mill are ready for operation.

EUGENE ITEMS.

Our regular correspondent under date of Oct. 23d, sends us the following items:

G. W. Young has opened a new fish and game market on Main street.

The neat residences of Rev E. P. Geery and Sheriff Eakin are nearing completion.

Our esteemed deputy postmaster, E. C. Brumley, died last Saturday at the age of 21, of typhoid fever. He was a strong, hearty man of promising abilities and manly principles, which won for him a strong friendship in the hearts of the young men of this place. On Sunday a large concourse followed his remains to the Masonic burying ground.

Tacoma *Herald*: A few days since a vessel belonging to the lumber trade, sailed from Tacoma Mill without the aid of the tug. This is remarkable, as it is, perhaps, 150 miles to the sea.

PACIFIC COAST NEWS.

CALIFORNIA.

An Important Lawsuit.

SAN FRANCISCO, Oct. 22.—Trial in the case of Wm. F. Babcock, Tiburcio, Parolt, Wm. Babcock and Louis B. Parrott & Co., doing business under firm name of Parrott & Co. vs Wm. R. Briggs, Patrick Connor and Edward Morris, began this morning in the fourth district court. The case is watched with much interest as it involves the question whether the money alleged to be lost by Ver Mehr, formerly in the employ of Parrott & Co., but now an inmate of San Quentin, on conviction of embezzlement, which money was the property of his employers, can be recovered from defendants, at whose gambling house it was lost. Ver Mehr was brought over from San Quentin as a witness in the case.

An Accidental Shot.

The coroner's jury in the case of Thos. L. Smith, one of the proprietors of a shooting gallery at 821 Kearney street, who was shot on Saturday by Elwin H. Ladd, brother of the partner of the deceased, returned a verdict to-day to the effect that the killing was accidental. The charge of manslaughter against Ladd was continued in the police court to-day until to-morrow, pending the result of the coroner's inquest.

THE JUDICIARY ACT.

The question has been mooted whether it was within the constitutional power of the legislature to pass the new judiciary act. One of the objections is that the state has not the population required by the constitution as a necessary precedent to the organization of a supreme court. Another is that the act removes the present circuit judges from positions which they hold under the constitution, and that in consequence it goes beyond the power of the legislature. This last objection is altogether invalid. The former one relates to a question of fact which the legislature may judge for itself, and of its decision there is no means of obtaining a review.

Briefly, it may may be stated that the constitution provides that "when the white population of the state shall amount to two hundred thousand, the legislative assembly may provide for the election of supreme and circuit judges in distinct classes." There has been no recent census of the state; hence the population is a good deal a matter of conjecture. The only criterion is the number of votes cast at the last election, and this affords only an approximate demonstration. The number was about 35,000. It is likely that there was not a full vote on that occasion, since it is rare that all the voters are called out at any election. It would probably be safe to say that the number of voters now in the state exceeds 40,000. At the rate of five inhabitants for each, the proportion usually allowed in these estimates of population, the number of inhabitants would now be two hundred thousand. But whether it is so or not, the legislature has decided that it is, and there is no method of ascertaining the contrary.

It is true that the present judges are removed by the act, though strictly speaking, they are not circuit judges, but justices of the supreme court who have heretofore been charged with the performances of circuit duty, in addition to their duty as justices of the supreme court. The constitution provides that "the circuit court shall be held twice, at least, in each year in each county organized for judicial purposes, by one of the justices of the supreme court, at times to be appointed by law." They are not circuit judges, then, doing duty as justices of the supreme court, but justices of the supreme court doing circuit duty, and a separate supreme court, as provided for in the constitution, to consist of three members, the number limited by the instrument, could not be organized without setting aside the existing system. A separate supreme court being constituted, it became necessary at the same time to establish circuit courts. The act does this also; and until elections can be held the power of appointment is vested in the governor.

On a superficial view of the subject one may incline to the opinion that the act of the legislature on this subject was a high-handed proceeding; and we have heard several citizens so express themselves. But further examination will lead to a different conclusion. We see no reason to assert that the legislature has not kept within the limits of its constitutional power.

If we have cast up correctly the deficiencies for which provision is made in the appropriation bill passed at the recent session of the legislature, the total is $37,228 57. But we learn that it is beginning to be a question whether these deficiencies will be paid. The reason is found in section six, article nine, of the constitution of the state, which provides that "whenever the expenses of any fiscal year shall exceed the income the legislative assembly shall provide for levying a tax for the ensuing fiscal year, sufficient, with other sources of income, to pay the deficiency, as well as the estimated expenses of the ensuing fiscal year." But the legislature did not provide for levying such tax for deficiencies; and it is suggested, therefore, that these bills will at least have to wait till current expenses are provided for and it be seen whether there is a surplus.

The Governor has done an excellent and commendable thing in appointing Mr. A. Bush superintendent of the penitentiary. Certain extreme partisans may be unhappy over it, but people generally will commend the appointment. W. P. Miller of Wasco has been appointed chief warden which is also a good selection. There are mutterings of wrath among Democrats of straight Bourbon proclivities in consequence of several appointments recently announced; but there is a vast majority who are glad to know that Gov. Thayer is governor of the state and not of the Democratic party.

The La Grande *Gazette* well says that a system of narrow gauge railroads penetrating the agricultural districts in Eastern Oregon and Washington territory connecting with the Columbia river will go further toward checkmating any railroad scheme from Walla Walla to the Sound than any other or all other things that could be done. And the *Gazette* wonders if Portland understands all this? Certainly Portland ought to understand it.

The Boston *Herald* learns that among the people of Boston who are purchasing the new 4 per cent. bonds there are fifty from the middle and working classes to one investor that could be regarded as in any sense a capitalist. Savings banks and trust institutions are taking the 4 per cents in large quantities to a considerable extent, but the great majority of sales range in amount from $100 up to $500.

Tony's vehement and repeated disclaimers of any intention to do wrong in the matter of measuring the printing, his pleas that at most it was only a case of neglect, a mistake of judgment, etc., are almost enough to convince any one that it was error whose fault lies with the pocket rather than with the head.

There is a shaking among the dry bones of the Democracy of the old territorial days, and as Brown and Noltner of the Groverian period behold the forms of Bush and Harding coming up they begin to cry for the rocks and the mountains to fall on them, and hide them from the wrath to come.

The spectre of the "Salem clique" is rising again. And the "faithful Democrat" whoops louder than Howlish Wampo or We maspsnoot with war paint on.

See how the offices are being disposed of. Just as if there was not a legion of needy Democrats!

Miles is on the Yellowstone, and he will get those Cheyennes if they pass his dead line.

The Alaska fishing fleet on the Chumagin codfish banks and other places has been moderately successful. The Ounga coal mine, however, has proved a failure, and only two men remain there to prospect for a better quality of coal.

H. B 181—Reported from committee on ways and means; bill to provide for the ordinary expenses of the state government, and general and specific appropriations.

It is rather a strange coincidence that just thirty-three house bills were passed through both houses—the same number as were passed of senate bills, making the whole number of bills which are to become laws 66. Thirty-three passed out of a whole number of 134 introduced in the house. Whole number of bills introduced in both houses 322; whole number passed 66, leaving 256 poor ghosts of dead bills wandering about in the Hades, where all bad bills go.

CALIFORNIA SILK

Manufacturing Company,

ROBERT R. YATES, Agent,

595 Market st., cor. Second, San Francisco.

MESSRS. WM. MACDONALD & CO. HAVING retired from the Sales Agency of this Company, the business will hereafter be conducted in the name of the CALIFORNIA SILK MANUFACTURING COMPANY, on the same premises as abovenamed. Mr. ROBERT R. YATES, late with Messrs. Murphy, Grant & Co., will act as Agent.

New Machinery has been added to our factory, and our stock on sale has been and will be very much enlarged.

Our Standard Goods are now ranked fully equal to the best goods made in the United States, and are far superior to the average imported. We also make the cheaper grades to meet the demand for such goods.

Having a Factory at South San Francisco always at work, and unlimited facilities, we are able to keep our stock in store always fully assorted, and can furnish any silk required at short notice, from stock or made to order. This gives us great advantage over importers in supplying customers with any desired color or kind of silk in the line of Machine Twist, Embroidery, Fringe, Trass and Sewing Silks. Dealers buying of us need to carry but small stocks, thus saving interest and shop wear on goods.

We absolutely Guarantee our Standard Goods to be equal to the best and most celebrated silks made, and the general favor with which they are now regarded by consumers and dealers, selling as we do to nearly the entire trade, proves our assertion to be true, and should any goods be found not as guaranteed, we will willingly take them back.

Attention is drawn to the fact that besides our regular standard goods, we have made, to meet a demand for cheap grades, a second quality which is sometimes mistaken for the former. We shall in future use different brands for the lower qualities, though some time may elapse before a complete substitution of names can be made. Lists of our products with prices can be obtained by mail.

Our manufacturing business has been built up with much labor and sacrifice during the last seven years, and after overcoming great vicissitudes, has achieved complete success as a California industry.

Employing as we do nearly One Hundred American and European Women and Girls,

Giving the best of Silks made at the lowest prices for corresponding grades, and affording better facilities in stock variety for selection than any other Silk Agency, we feel that we are entitled to the patronage and preference of all who desire to AID HOME INDUSTRY.

CITY.

A PLEASANT AFFAIR —The Ladies Society of the Congregational church which gave a series of pleasant social entertainments last winter inaugurated another series of similar entertainments last evening by a popular gathering at the elegant home of Mr Geo Marshall on B and Fourth street The spacious parlors and even the halls of the house, were filled early in the evening by a merry party, which, after spending an hour or so in social pleasures of a mild sort came to order, or rather, to silence and I stened well pleased to a series of literary and musical exercises in which Mrs C A Dolph Mrs J A Cruzan Capt M C Wilkinson, and Rev J A Cruzan appeared Conversation was again in order and was soon followed by refreshments consisting of ice cream cake etc for which a small charge was made to aid the society in its work The entertainment concluded with exercises in which Messrs Vinton, Wallace Schwabe Wilkinson Spaulding and others took part The occasion was pleasant throughout and all present enjoyed it heartily

GROWTH OF PORTLAND —Says the *Telegram* of last evening 'Do people realize how rapidly Portland is growing' At the date of last report there had been nine hundred and twelve buildings erected in the city since the first of January last including those still under construction Allowing twenty feet front for each building the total frontage of new structures would be 18 240 feet or considerably more than three miles Allowing fifteen feet front for each the total would be 13 680 feet, or more than two miles Thus at a moderate estimate the new buildings erected this year in Portland would build up a street from one to one and a half miles long solid on both sides, with no allowance made for cross streets Portland's growth this year alone equals the size of almost any other town of the whole northwest It is about the same as if such a town as Seattle or Albany had been dropped into our city since the beginning of the present year'

SERIOUS ILLNESS —While Hon J C Cartwright was addressing the jury in the case of Frank Tompkins against French in the state circuit court last evening, after having spoken a few minutes, he suddenly stooped and putting his hand to his head asked the judge to excuse him from speaking further as he felt ill He had hardly said the words when he staggered a few steps side ways and fell in a faint to the floor A physician was called, under whose care he soon came to It was a case of syncope of the heart. The court adjourned in consequence till this morning

A YOUNG SAILOR —On board the *Belle of Oregon* there is great rejoicing Several flags from the signal code were floating at her pinion mast head this morning, which interpreted by the knowing ones, meant WELCOME the American ensign at the peak also indicated that the little boy is an American subject Long may he live to gladden his parents, and in due time take command of one a vessel as the one on which he now is can conderable commanding

INTERESTING SERVICES ON SHIP-BOARD.

Many persons, mostly seafaring men assembled in the cabin of the ship *Siam* (see Dent 39, of Glasgow, on Sunday last to hold a prayer meeting, and it was a precious season The crew consists of 25 persons, all told of these 16 are Scotchmen and three besides the captain are Christians On arriving in Portland Capt. J Black hoisted the Union Bethel flag a white burgee with blue star in the upper corner About 180 British shipmasters belong to the Union Bethel Association and carry a register and a flag for mutual recognition and for expressive work at Christmas During his previous passage from India to Great Britain 17 of his crew were converted. He holds regular services every evening at sea, and very earnestly seeks the salvation of his entire crew

Captain Stubbs and wife, Mr Lauton and wife Mr Wilson and wife Mrs Fletcher Mrs Thompson, and Miss Lewis, were present with other laborers, and the meeting will long be remembered by those of the precious testimonies related by Capts Black, M. Ingersoll and others

The *Siam*, is one of three belonging to Capt J Black, of Glasgow an earnest Christian ship owner and each vessel a name is the name of a mountain mentioned in the Scriptures—Shenir Nebo and Amana

ROMEO AND JULIET —New Market Theater was crowded to overflowing last evening on the occasion of their presentation in this city for many years of Shakespeare's beautiful drama of Romeo and Juliet From orchestra to gallery the auditorium was jammed to repletion A large number of persons were turned away not even standing room being obtainable At this late hour we are not able to devote much time or space to detail or particularization of the piece was very handsomely mounted and ran smoothly from the opening to closing scene Of Mrs Scott Siddons' Juliet too much can scarcely be said in praise Her personation of the love sick girl was characterized throughout by rare precision correct elocutionary art and a certain grace and elegance perfectly charming In some of the trying and vehement passages there was a seeming absence of physical strength and a degree of vigor required by the scene This, however was more than atoned for by the gentleness and womanly sweetness with which the character was invested The balcony scene and the one with the nurse immediately succeeding were artistically beautiful The lady as an exponent of the histrionic art is deserving of a front rank among the leading artists of this country Miss Jean Clara Walters as Romeo deservedly shared the honors of the even ng She gave a vigorous but most artistic interpretation of the character In the essential requirements of form voice, gesture and elocution Miss Walters is not deficient She has a good impressive presence and acts with ease grace and force Miss Walters has been engaged as leading lady and from the good impression made last evening we predict that she will become one of the established favorites with the Portland public The support without an exception was prompt and efficient and could scarcely have been improved Miss Lottie Wade personated the Nurse excellently As Lady Capulet Mrs Trengove acquitted herself quite creditably Mr J M Ward's Mercutio was a very careful and correct piece of acting Mr A Sutherland as Tybalt did some capital acting quite surprising to be audience The character of Benvolio was personated acceptably by Mr P J Wade Mr R C White did unusually well as Friar Lawrence The characte of Paris was entrusted to Mr T C Howard who acquitted himself in a most excellent manner As Capulet Mr J B Robinson did fairly throughout the performance was keenly appreciated Romeo and Juliet will be presented again to night Secure your seats in time

DR. BRENAN,

His Wonderful Success

IN THE TREATMENT OF ALL

Chronic and Difficult Diseases,

He has astonished the People of this Coast by his skillful Operations.

HE HAS TAUGHT IN HIS

public and private lectures the true principles of health and life to both male and female. He has also warned them against habits that would be likely to produce disease, in plain and comprehensive language. He has found them crushed and broken down by disease, mentally and physically, he has restored them to health and happiness, for it is well understood that without health there can be no happiness.

DR. BRENAN

has made a specialty in the treatment of the following diseases: Catarrh, Bronchitis, and all diseases of the throat and chest, by an entirely new system only known to himself. Diseases of the Kidneys and Urinary Organs, including Spermatorrhea, Seminal Weakness or premature loss of Manhood. In the treatment of these diseases he has made a world wide reputation by his, astonishing success, not only on this Coast but throughout the whole United States. Diseases of the stomach, bowels, liver and kidneys as well as all diseases of the blood and skin he has become master of, and never fails to give relief at once, and permanently cures the case if he is applied to in time.

THE DOCTOR HAS GIVEN SPECIAL LECTURES

to ladies only for years and is perfectly familiar with all female complaints, and understands their delicate and refined organization, as well as the proper remedies which should be used to allay their suffering and restore them to perfect health.

THE DOCTOR HAS THIS ADVANTAGE

over most physicians—he can tell the patients' disease the moment he comes in contact with them without any aid from the individual. This accounts in part for his great professional success.

All surgical operations can be performed by his skillful hand, and the patient need not fear the result.

DR. BRENAN

will send to those living at a distance and who cannot well visit his office a list of Printed Questions and by the answers when filled out he can tell the disease as well as the proper treatment almost as well as seeing the patient personally, and will forward the proper medicines, or instruments, to any part of the country with full instructions and advice. Each letter requiring advice or list of questions, must contain two postage stamps.

Everything strictly confidential and honorable.

THE DOCTOR

has studied in the best Medical Schools in Europe and three years in the Jefferson Medical College at Philadelphia, as more than one of the Medical men of the Medical Faculty in this State can testify.

CAUTION.

Persons coming to Portland, requiring medical treatment of the proper kind, who desire to consult with me, will please beware of persons who may try to coax them away to other so-called Doctors, through pretended friendship for the patients. Look out for them; they are knaves, prompted by selfish motives and what they can make. Be sure and ask for DR. PAUL M. FRENAN, the *Medical Lecturer*, and read his sign on his door.
